

Animal Friendly Vegetarian Policy

Our Companions Animal Rescue promotes compassion and kindness to all living beings.

Given the above, food served at all Our Companions staff meetings and employee events, the food that employees are reimbursed for while traveling, employee food choices when meeting with donors, and food served at any other Our Companions related events will be vegetarian.

While not all Our Companions staff and volunteers follow plant-based or vegetarian diets, Our Companions is an organization dedicated to animals and their well-being. Our Companions staff are expected to respect and follow this policy when using donor money because it is important that, as employees of Our Companions, we always represent the values of the organization.
