Thank you for your interest in scheduling a Behavior Evaluation with Our Companions Animal Rescue. We are here to support you in your efforts to solve the behavior problem you have with your dog. At your evaluation we will discuss management tools and training strategies that hopefully will start overcoming whatever issue you are facing. We offer dog friendly, positive-based training methods where we can work with you in our classes, and written materials to provide support outside of class.

To scheduling a Behavior Evaluation with Our Companions, please complete the following paperwork:

- Behavioral Questionnaire
- Dog Profile – Evaluation Only

Submit the above completed forms along with your dog's Vet Records including Chart Notes. Since some behavioral issues can be caused by medical issues, the chart notes may provide some necessary insight. A valid rabies vaccination is mandatory for all dogs we evaluate and who participate in our training classes.

To sign up for a Behavioral Evaluation, return the attached Behavioral Questionnaire, Dog Profile, and Veterinary Records. After we receive your information, you will be contacted to schedule an Evaluation where we will meet your dog.

Warm Regards,

Caroline K. Gaetano
Director of Community Programs
